

# ARCHITECTURAL DESIGN REPORT

## OPTION 2 - EAST FACING RESIDENCE

<b>Plot Dimensions</b>	40.0 x 30.0 ft
<b>Orientation</b>	East
<b>Vastu Score</b>	90.4/100
<b>Compliance Level</b>	Excellent

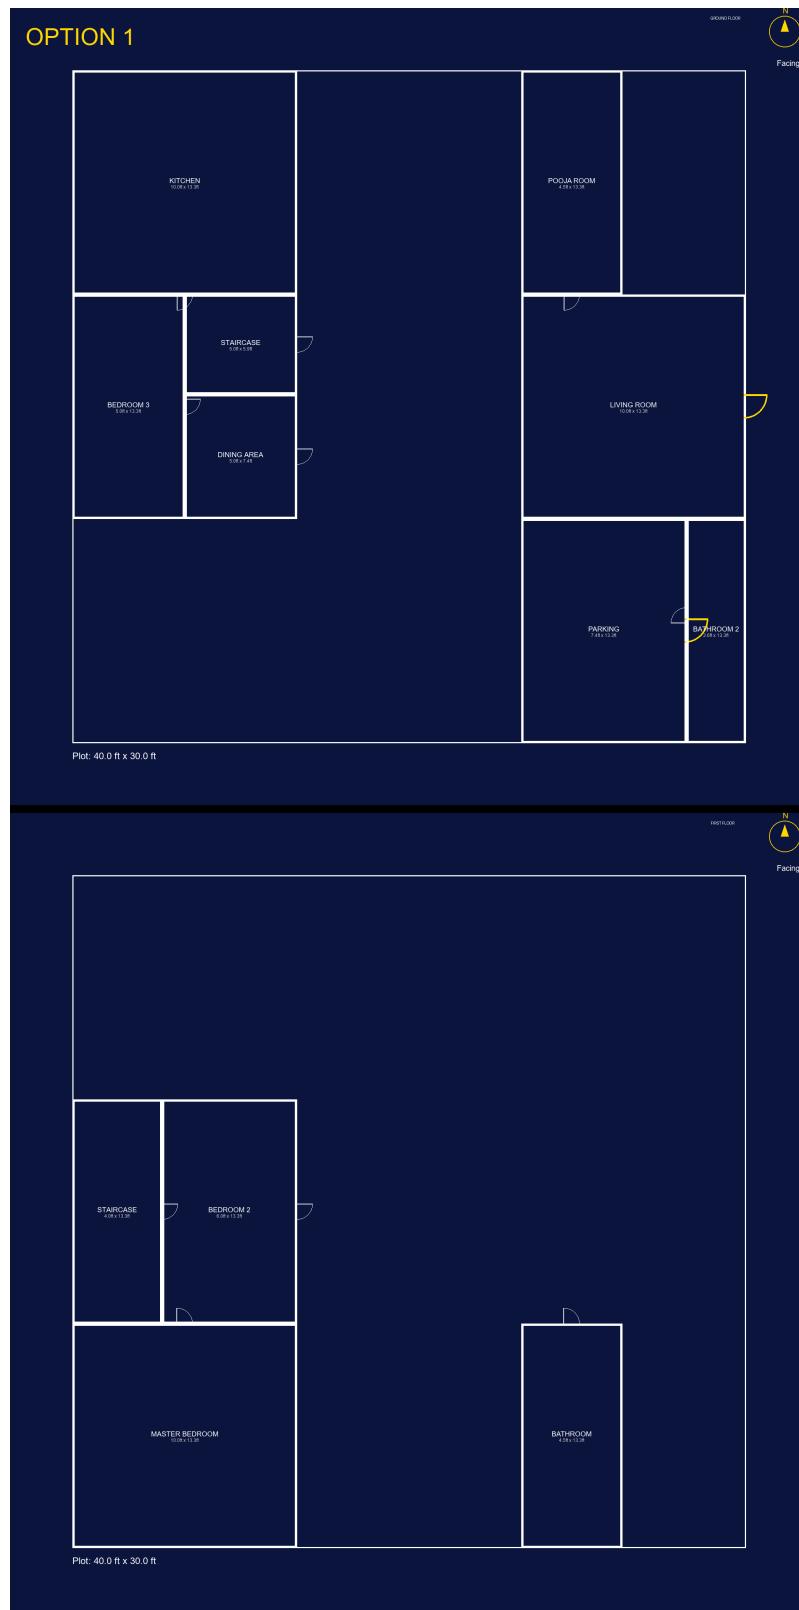

## Executive Summary

Architectural Design Report for a modern Residence. Plot: 1200.0 sq ft, east Facing. Layout Configuration: G+1 structure with 3 bedrooms. Executive Summary: This design prioritizes functional flow and Vastu compliance. The spatial organization ensures the best of both worlds. The design is not only designed to provide a natural environment for visitors and is designed to provide a more contemporary living experience in a more modern world. The floor floor is designed to make the floor look more modern and easy to access. As envisioned, this design is designed to include a large amount of space to accommodate the space that is available for all floor space. The floor is designed to offer a room for the most out of the room, and the floor is also

## Scoring Methodology

The Vastu Compliance Score is a weighted aggregate reflecting how well the spatial organization aligns with ancient Vedic architectural principles. Key functional areas (Kitchen, Master Bedroom, Pooja Room) carry higher weightage (15-20%) compared to others. A score of 100% indicates optimal placement for all rooms according to the chosen Vastu strictness level.

## Proposed Floor Layout

## Detailed Vastu Analysis & Benefits

Room	Zone	Status	Vastu Benefit & Reasoning
Pooja Room	NE	Optimal	<p><b>Reasoning:</b> North-East (NE) is the Ishan corner, perfect for meditation and connection to divine energy.</p> <p><b>Benefit:</b> NE placement connects with cosmic energies, enhancing spiritual growth, peace, and mental clarity.</p>

<b>Kitchen</b>	NW	Needs Attn	<b>Reasoning:</b> North-West (NW) is a supportive alternative for the Kitchen. <b>Benefit:</b> SE placement harnesses the fire element (Agni), promoting good health, digestive strength, and family prosperity.
<b>Living Room</b>	E	Optimal	<b>Reasoning:</b> North-East (NE) or North (N) allows positive morning energy to enter the house. <b>Benefit:</b> NE/N placement invites fresh prana (life force) and positive social interactions for the family.
<b>Staircase</b>	W	Optimal	<b>Reasoning:</b> South (S), South-West (SW), or West (W) are best for heavy structures like stairs. <b>Benefit:</b> Placement in heavy zones (S/SW) provides structural stability and blocks negative energies from these directions.
<b>Parking</b>	SE	Optimal	<b>Reasoning:</b> North-West (NW) or South-East (SE) provides movement and mobility. <b>Benefit:</b> NW placement ensures vehicles are constantly in use and reduces maintenance issues.
<b>Dining Area</b>	W	Optimal	<b>Reasoning:</b> West (W) is the best zone for dining and nourishment. <b>Benefit:</b> West placement fosters profitability and ensures food is enjoyed in a relaxed atmosphere.
<b>Bedroom 3</b>	W	Optimal	<b>Reasoning:</b> West (W) or North-West (NW) is good for children or guests. <b>Benefit:</b> West placement is excellent for gains and studying; NW supports movement and guests.
<b>Bathroom 2</b>	SE	Needs Attn	<b>Reasoning:</b> South-East (SE) is also acceptable. <b>Benefit:</b> NW placement aids in effective waste elimination and prevents the stagnation of negative energies.
<b>Master Bedroom</b>	SW	Optimal	<b>Reasoning:</b> South-West (SW) brings stability, strength, and leadership qualities. <b>Benefit:</b> SW placement ensures stability, confident leadership, and sound sleep for the head of the family.
<b>Bathroom</b>	SE	Needs Attn	<b>Reasoning:</b> South-East (SE) is also acceptable. <b>Benefit:</b> NW placement aids in effective waste elimination and prevents the stagnation of negative energies.
<b>Bedroom 2</b>	W	Optimal	<b>Reasoning:</b> West (W) or North-West (NW) is good for children or guests. <b>Benefit:</b> West placement is excellent for gains and studying; NW supports movement and guests.

## Design Notes

- Option 2 optimized for compliance.
